BIENNIAL REPORT.

DEPARTMENT OF STATE,
OFFICE OF SECRETARY OF STATE,
SALEM, Oregon, Sept. 1, 1880. }

To the Honorable, the Legislative Assembly of the State of Oregon:

I have the honor to submit herewith the report of this department for the biennial term ending September 1, 1880.

STATE FINANCES.

The total amount of appropriations made at last session of the legislature for current expenses of the State government, including interest on war bonds, etc., for the two years ending on September 1, 1880, was \$395,952.29; of this amount \$37,954.57 was for the payment of deficiencies in excess of appropriations of 1876, \$9,000 for the relief of educational and charitable institutions, \$3,791 for the relief of commissioner Dufur, and \$1,285 for the relief of treasurer Flannagan, the remainder for the payment of interest on war bonds, expenses of the legislative assembly, pay of executive, administrative and judicial officers, and other expenses of the State government.

These appropriations were made from the general fund, derived mainly from the four mill tax authorized by the act approved Oct. 20, 1876. The revenue from this tax for the years 1878 and 1879, (see tabular statement in pages following) was as follows:

For the year 1878.....	\$184,961 30
For the year 1879.....	185,691 24

Making a total for the two years of..... \$370,652 54

Or \$25,299.75 less than the aggregate sum appropriated for the expenses of the period named.

The fund has, however, been relieved by the following additions from other sources:

1st. By amount turned over by Treasurer Brown, Sept. 9, 1878, subject to appropriation.....	\$23,370 11
---	-------------

By amount collected since that date from various sources, delinquent taxes, sale of stamps, care and treatment of insane patients, sale of books, earnings of penitentiary, etc.... ..\$38,583 04

Making the receipts to the general fund from all sources..\$432,605 69

APPROPRIATIONS, EXPENDITURES, ETC.

The following tabular statement shows the various amounts appropriated by the legislative assembly of 1878 to meet the expenses of the State government for the biennial term ending September 12, 1880, and for other specific purposes, together with the amounts expended and the various balances remaining unexpended at this date :

*Several claims against the State incidental to preparing for the session of the legislature remain unpaid.

†The balance remaining unexpended was appropriated for the purpose of returning discharged insane patients to their homes.

‡The printing of the State officers' reports for 1880, and some miscellaneous printing for the various departments, is as yet unpaid for.

By this statement it may be noticed that the expenditure of funds under control of this and other offices of the State, have in no instance exceeded the amount appropriated, but that a large balance remains in the treasury subject to re-appropriation.

The statements further show that the revenue derived from the four mill tax is, without the additions realized from miscellaneous sources, insufficient to meet the current expenses.

It is, however, believed that with careful and economical management in all departments of the State government, the expenses of the next two years may be met without any additional tax for this pur-

pose, but this estimate is based upon the actual current expenses for the past two years, and cannot be considered if large additions are made to the appropriations of 1878.

The following is an exhibit of the expenses of the State government for the periods named as shown by the abstract of warrants on file in this office:

Expenses for all purposes, biennial term ending Sept., 1876.....	\$ 557,351 57
Expenses for all purposes, biennial term ending Sept., 1878.....	474,241 66
Expenses for all purposes, biennial term ending Sept. 1, 1880, including deficiency in excess of appropriation of 1876.....	407,802 32

The legislative assembly of 1878, appropriated the following sums from the general fund to meet deficiencies or indebtedness in excess of appropriations of 1876:

Indigent fund.....	\$ 3,070 78
Fugitive fund.....	2,744 60
Convict fund.....	4,000 00
Insane fund.....	6,000 00
Printing fund.....	420 00
Insane and Idiotic fund.....	10,647 86
General fund.....	771 23
Penitentiary fund.....	9,574 10

Total\$ 37,228 57

Against the several funds enumerated, there were presented claims amounting in the aggregate to \$39,646.35. Upon examination of these accounts many were found to contain charges which were deemed in excess of lawful allowance, and they were reduced by proper audit to the aggregate sum of \$33,868.00, leaving a balance of \$3,360.57 in the treasury subject to re-appropriation.

There were further appropriations made at last session from special funds, as follows:

From soldier's relief fund, for repairs and additions to State capitol building.....	\$ 25,750 00
From capitol building land fund, for same purpose.....	3,250 00
From common school fund, for salary of clerk and expenses incidental to management of common school fund.....	3,400 00
From State land fund, for expenses incidental to State lands.....	1,000 00
Total.....	\$ 33,400 00

CONVEYANCE OF INSANE.

During the two years ending September 1, 1878, there were received at the Oregon hospital for the insane, 185 patients; the aggregate cost of conveyance being \$16,000, an average of \$86.48 each. During the two years ending September 1, 1880, the number of patients received was 198, at an aggregate cost of the State of \$11,201.60, the average cost being \$56.51 each.

The appropriation made at last session for the service being much less in amount than former appropriations for same purpose, it has, owing to the increased number of commitments, been found insufficient to meet the entire expense of past two years, and there will be a small deficiency to be provided for.

NUMBER OF INSANE PATIENTS, ETC.

The present contract price for care and treatment of the insane is \$5 per week for each patient. The total number of State patients now under treatment is 281.

CONVEYANCE OF CONVICTS.

For the biennial term ending September 1, 1878, there were received at the State penitentiary 151 convicts, the charge for their conveyance being \$14,000. Of this amount, \$10,000 was appropriated by the legislative assembly of 1876, and the remaining \$4,000 by the legislature of 1878, to meet the deficiencies of the preceding two years. The average cost of conveying each convict being \$92.71. During the last two years, ending September 1, 1880, there were delivered at the penitentiary 209 convicts, the aggregate cost being \$11,471.75, or at an average of \$50.10 each.

The service of the conveyance of convicts and insane, should be a county charge as is the expenses of the arrest, trial and conviction of the former, or the examination and commitment of the latter. Should the law be so changed as to make this class of service chargeable to the county, it would, we feel confident, have a beneficial effect and lessen a fast increasing expense in the transportation of both classes. If, on the other hand, the service is considered payable out of the State treasury, it might be performed at a much less expense by sending from the prison or asylum, as the case might be, upon notification from the proper officers of conviction or commitment, a guard from the institution, allowing only the actual and necessary traveling expenses, thus saving annually to the State a large sum now paid as per diem to offi-

cers and guards. This practice obtains in other States with satisfactory results.

The law governing the examination and commitment of insane patients to the asylum, is one demanding your earnest attention and consideration; as it now stands, it is made incumbent upon the State to pay for the care and treatment of a class of unfortunate persons, who, by reason of idiocy or imbecility alone, are now committed to the asylum. This class of unfortunates should be provided for by the county wherein they reside. Idiocy or imbecility has not made them dangerous, and it is questionable whether or not their mental condition is not made worse instead of better by continual contact with the dangerous and violent inmates of an insane asylum. This consideration alone, to say nothing of the material lessening of State expenses in making this change, demands your attention.

In this connection it becomes my duty also to call your attention to the necessity of commencing at once the erection on the grounds near this city, provided for that purpose, of an insane asylum to be under the control as are other State institutions of duly qualified officers. The existing contract with Dr. J. C. Hawthorne, will expire January 1, 1882, and steps should be at once taken to lessen if possible the increasing expense attached to the care and treatment of the insane. This can be done by careful and economical management on behalf of the State of an asylum of its own, which should be conducted not as a political job, by one administration after another, but as a humane and philanthropic institution, managed first with a view to the comfort and well being of the inmates, and second, in accordance with the best interests of the State.

Should it not be deemed advisable at this time to levy a special tax for this purpose an important beginning might be made by utilizing the unemployed convict labor in the accumulation of brick, stone and other requisite materials for the necessary buildings.

INDIGENT FUND.

SUPPORT OF NON-RESIDENT POOR.

The act of October 24, 1866, provides for the maintenance by the counties, at the expense of the State, of non-resident paupers who may apply for assistance or relief.

In this day of idleness, vagabondage and tramps, the treasury of the State is heavily taxed for the support and maintenance of paupers from adjoining States and Territories, and at each session of your honorable body, for many years past, there has been reported a large deficiency in excess of appropriations made for this purpose. The law so

far as it provides for the support of non-resident paupers at the expense of the State should be repealed, and paupers of every class should be made a county charge, or it should be so amended and guarded in its provisions as to prevent the maintenance of idle vagabondage at the expense of honest industry. The appropriation at the last session of the legislature for this purpose was insufficient to meet the accounts filed against it, and a large deficiency remains unpaid and to be provided for.

STATE INDEBTEDNESS.

The aggregate amount of State indebtedness, September, 1, 1878, was \$737,717.34 exclusive of accrued interest upon outstanding warrants, &c., and including the Indian war debt of 1877-8. The total amount of the State debt, Sept. 1, 1880, exclusive of interest, was \$511,376.15, showing a reduction during biennial term just ended of \$226,341.19.

The present indebtedness is shown by the following statement :

BONDS BEARING SEVEN PER CENT. INTEREST.

Soldiers relief bonds, payable July 1, 1884.....	\$ 761 10
The soldiers bounty bonds, payable January 1, 1875.....	25,850 00
Willamette falls canal bonds, payable Jan. 1, 1881..	151,500 00
Modoc war bonds, payable January 1, 1880.....	132,921 78
Umatilla war bonds, payable January, 1, 1890.....	45,475 51
	\$356,508 39

OUTSTANDING WARRANTS.

Warrants drawing 10 per cent. interest payable out of specific funds such as swamp, overflowed, tide, five per cent. and other land funds, exclusive of interest....	\$134,530 00
Outstanding warrants payable from special tax, exclusive of interest.....	20,337 76
	\$ 154,867 76

Total State indebtedness Sept. 1, 1880.....\$ 511,376 15

The interest due upon the unpaid balance of the outstanding warrant debt September 1, 1880, was estimated at, \$13,000.00. This

added to the principal, \$20,337.76, makes an aggregate amount of \$33,337.76 still due. The sum which will be derived from the three mill tax for 1880, now in the course of collection, will extinguish this entire debt, and leave a large surplus in the treasury, which may be applied to the erection of an insane asylum, or to the completion of the capitol building. The purpose for which this tax was created will thus be accomplished and it may be discontinued.

The Modoc war debt, \$132,921.78, (principal) became due and delinquent on the 1st day of January of the present year. This debt should be refunded and 7 per cent. bonds re-issued therefor, payable in ten years, or at the option of the State, and a special tax of one and one-half mills levied to be applied to the extinguishment of the principal and interest of the whole of the bonded war debt of the State. By proper management this may be accomplished and the entire debt paid within a few years time.

The Willamette falls canal and lock bonds authorized by act of legislative assembly, October 21, 1870, payable from the State land fund will become due on 1st day of January next. This debt should also be refunded and new bonds issued therefor.

The investment of the common school fund in these and other 7 per cent. interest bearing bonds of the State would be of great advantage and should be authorized by law. Thus based upon the best security, they would afford a safe income which would be promptly paid when due, and infinitely more secure and remunerative to the fund than the present system of making loans, under which the apparent advantage of an augmented rate of interest is lost in the expenses of collection.

The whole of the educational funds of the State required by law to be loaned, should as far as practicable be invested in these and other State bonds, and thus in a measure dispense with the cumbersome and expensive machinery of the present plan through which the principal and interest is often lost by depreciation of the security taken.

CAPITOL BUILDING.

The roof of the capitol building has, during the last two years, been an extraordinary source of expense. In addition to the immediate repairs necessary at the commencement of my official term, it has been found necessary to re-cover (with tin), almost the entire building. The wind storm of October 18, 1879, stripped the tin from the roof on the west side of the south wing. The protection of the wall from serious if not irreparable injury, necessitated the expenditure of nearly \$600 in re-covering the exposed portions of the roof and repairing other damages. This was followed by the unprecedented wind and rain

storm of January 9, 1880, during the prevalence of which large sections of tin were blown off from the south, west and north wings of the building, pieces of which were by the wind transported several blocks. The continued severity of the storm not only rendered it impossible to at once repair the damages, but made it necessary also to better secure the remaining portion of the roof and protect the rooms below from damage by water. In order to accomplish this, a force of men was employed, who, with sponges, buckets and tubs worked almost incessantly, day and night, in the rooms now occupied by the house of representatives, the State library and the rooms formerly occupied by the Superintendent of Public Instruction, to keep the water from soaking through the floor and ruining the walls of the senate chamber and the offices beneath. The supreme court then in session was removed to the senate chamber; unremitting attention alone saving the books and records of the State library from injury. This was partially accomplished by spreading tarred canvas on the exposed portion of the roof over the rooms mentioned. A force of men was also placed on the roof to better secure the partially exposed portions of the same from the severity of the storm. A heavy fall of snow retarded repairs, and careful management was necessary to insure the proper protection of the building. No sooner had the storm abated sufficiently to warrant a commencement of operations and as soon as circumstances would permit, the *debris* of the old roof was removed and a new one put on, in a manner sufficiently substantial; it is hoped, to insure protection to the building for many years to come without additional expense, unusual care having been taken by the contractor to insure a first class job. This storm damaged the building to the extent of nearly \$3,000. The expense attending the repairs were approved by the capitol building commissioners and paid out of the fund arising from the sale of the capitol building lands, in accordance with the provisions of sections 67 and 68, of chapter XXIX, title V, of Deady's code. The exigencies of the case, in their opinion, warranting the expenditure of a portion of that fund. The expenses incurred in repairing the damage done by the storm of Oct. 18, 1879, were paid out of the incidental fund. Taking in consideration the season of the year, and the unusual severity of the weather after both storms, it is a source of congratulation that the building was not injured to a much greater extent.

OREGON REPORTS.

Messrs. A. L. Bancroft & Co., of San Francisco, having recently published the seventh volume of Oregon Reports, a sufficient number of copies of the volume should be procured for use of the State and for exchange with other States. They have also republished Volume 1 of the reports which has long been out of print. The purchase of a

sufficient number of copies of this volume also should be authorized.

MONEY COLLECTED FROM MISCELLANEOUS SOURCES.

During the past two years I have collected and paid over to the State Treasurer moneys received from various sources, as follows:

From sale of stamps, under law regulating foreign insurance companies.....	\$ 5,215 39
From parents or guardians for care and treatment of private insane patients.....	3,317 15
From sale of books, etc.....	504 54
From sale of property, etc.....	3,522 93
Total.....	\$ 12,560 01 ✓

DEFICIENCIES.

The following claims have been filed against the State in excess of the appropriations of 1878:

Insane fund, for conveyance of insane.....	\$ 3,331 50
Convict fund, for conveyance of convicts.....	1,546 00
Indigent fund, for care and support of poor.....	2,087 14
Common school fund, expenses of management of State lands, reported by the board of school land commissioners.....	1,938 40
State land fund, expense of management of State lands, reported by the board of school land commissioners..	908 13
Insane and idiotic fund, for care and treatment of insane..	21,038 33
Total.....	\$ 30,849 50

DEFICIENCIES OF 1876.

The following claims for services, etc., rendered the State in biennial term ending September 9, 1878, have been presented and payment therefor refused for want of appropriation:

Indigent fund, Baker county, for care of non-resident paupers.....	\$ 52 00
Indigent fund, Clackamas county, for care of non-resident paupers.....	89 00
Fugitive fund, Thos. B. Kent, for arrest of fugitive from justice.....	75 62

SEWERAGE OF CAPITOL BUILDING.

It becomes my duty to call your attention to the imperfect system of drainage to the Capitol building. . The present sewer outlets from the building are too small and are insufficient for the purpose. They terminate a short distance from the walls and empty into an exposed and uncovered ditch or gutter which runs through the streets of the city, thereby endangering the public health.

During the rainy season, perhaps four months of the year, the lower basement of the building is filled with surface and seepage water to the average depth of about twelve inches. This cannot continue without serious damage to the foundation walls, and should be remedied without delay.

I recommend that an appropriation be made from the general fund sufficient in amount to construct a permanent and substantial sewer, connecting with the Willamette river by city drains now in the course of construction.

CONDITION OF THE OFFICE.

The papers and books of this department have been carefully rearranged since the confusion caused by their removal from the old building.

The records of the Adjutant General's office transferred to the custody of this department by the act of 1870, have been carefully arranged for convenient reference.

The records of the provisional and territorial governments have been indexed and placed in suitable cases for better preservation.

The work in this office during the past two years has been such as to require constant and unremitting attention to keep it from falling into arrears. In this we have not been entirely successful, and additional clerical assistance is greatly needed. The correspondence connected with the various duties of this department is of no inconsiderable magnitude, and embraces subjects of varied nature, but are of importance to the writer; over 8000 letters have been received and answered since September 9, 1878.

Your obedient servant,

R. P. EARHART,
Secretary of State.

Com'r and ex-officio Sec. B'd.OFFICE BOARD OF CANAL AND
LOCK COMMISSIONERS OF THE
STATE OF OREGON,
August, 31, 1879*Hon. R. P. Earhart, Secretary of State:*

SIR:--I have the honor herewith to transmit the annual report of passengers, freight, etc., passed through the Willamette Falls Canal for the year ending August 31, 1879. The period embraced in this report is twenty days less than twelve months.

The previous report having been made to include the 20th of September, 1878. I entered upon the discharge of the duties of my office on the 21st of October, 1878, since which time, steamboats and other water crafts have passed through the said canal in the order of their arrival without detention and without accident in a single case. During the past winter there was only one day that steamboats did not pass on account of high-water, though Captain West, the Superintendent of the Canal and Locks had up a flag for three days, to indicate to masters of steamers that there was danger in passing through the canal.

The passengers, freight, etc., for the period above mentioned is as follows:

No. of passengers, 16,666, 10c.....	\$ 1,666 60
No. of tons of freight, 48,810, 50c....	24,805 00
No. of horses and cattle, 496, 25c.....	124 10
No. of sheep and swine, 251, 10c.....	25 10
Rafts of logs, 88,500 ft., 50c. per M.....	44 75
No. cords of stave bolts, 91, 25c. per cord.....	22 75
One scow.....	5 00
Total	\$ 26,692 70

Respectfully submitted.

Yours, &c.,

C. F. BEATTIE.

Acting Commissioner, Ex-Officio Secretary of the Board of Canal Commissioners.

Com'r and ex-officio Sec. Br'dOFFICE BOARD OF CANAL AND
LOCK COMMISSIONERS OF THE
STATE OF OREGON,
AUGUST, 31, 1880, }*Hon. R. P. Earhart, Secretary of State:*

SIR:—The following is my second annual report of the period from the 1st of September, 1879, to August 31, 1880, inclusive. I am gratified to be able to report another year of successful management of the canal and locks, during which boats have been passed in the order of their arrival without accident in a single instance, and without detention, except about 36 hours just after the freshet and storm that occurred in the early part of January last. At that time the canal above the guard lock was filled with large drift wood, and several feet of sediment had accumulated immediately above the gates at the guard lock. I deem it proper, in this connection, to mention that Captain George Raabe, with the steamer A. A. McCully, rendered efficient aid in removing these obstructions.

I deem it proper also to state that I have been able to maintain the most friendly relations with the superintendent of the locks, and also with the officers of the boats passing through the locks.

No. of passengers, 17,873, 10c.	\$ 1,787 30
No. of tons of freight, 58,710, 50c.	29,355 00
No. of horses and cattle, 576, 25c.	144 00
No. of sheep and swine, 275, 10c.	27 50
No. of cords wood, 43, 25c.	10 75
18,000 feet lumber (raft), 50c.	9 00
79,000 feet logs (raft), 50c.	39 50

Total.....\$ 31,373 05

All of which is respectfully submitted.

I remain your humble servant,

C. F. BEATTIE,
Acting Canal Commissioner.
